Work Experience

LearningFuze

Irvine, CA

Software Developer

2019

- Accelerated Web Development Training Program with over 60 hours of coding per week
 - Selected Projects (www.likenhp.com):
 - *Career Assistant* - A Job Tracking CMS developed in a team environment
 - Implemented Redux Forms that allows users to input data and perform user authentication; used React.js with JSX frontend to dynamically render frontend forms
 - Integrated Materialize CSS with Redux to create a mobile responsive application
 - *Cozy Corners* - A Location Finding CMS
 - Deployed a proxy PHP server to access Yelp's API, utilized jQuery AJAX calls to interface with Google Maps and Yelp in order to display a visual map with user reviews and location information with pins
 - Implemented local storage saving to allow users to store destination information
 - *Witcher* - A Memory Match Card Game
 - Created through the OOP paradigm using Javascript classes, adopted jQuery to dynamically create cards randomly appended to the DOM
 - Applied custom CSS transitions and game board animations; implemented CSS media queries to create a mobile responsive application

Anthem & Song Pictures

Los Angeles, CA

Marketing Assistant

2017 and 2018

- Maintained a proprietary database for talent searching and program ratings
- Conducted research on the current trends in action and scifi films and TV series
- Worked on various ad-hoc projects. Assisted in preparation of reports and proposals.
